

DENTAL INSURANCE POLICY

- Upon your initial visit, we will try to verify your insurance coverage by phone. Please have all information ready that we will need to determine your benefits.
- Payment for anything that is not covered by insurance is due at the time services are rendered.
- We will accept assignment of benefits from your insurance company. Any services, deductibles, or co-payments not covered by insurance are due at the time of treatment.
- A dental assistance program is not insurance and cannot be accepted as such.
- Your insurance policy is a contract between you and your insurance company. Please be aware that you are responsible for any discrepancies that there may be between you and the insurance company.
- It is our responsibility to present the correct procedure codes to your insurance company for your treatment. The insurance company then determines your benefits, under your contract, using those codes. Our office can answer your questions on procedure codes and explanation of treatment, but we cannot comment on your contract with your insurance company. If you are in need of an explanation of benefits under your contract, you will need to contact the person or company that pays your insurance premium.
